

THE HY-PACK SERIES

From General Pump

GENERAL PUMP

General Pump is pleased to introduce the "HY-PACK" series of pumps and hydraulic motors. This new family of products showcases our group's expertise by combining efforts from both our water jetting and hydraulic divisions. The end result is a range of compact pump and motor combinations that drastically reduce assembly costs and footprint space. See www.generalpump.com or contact a sales representative for details.

KE - KT - KV
